(EDRP)	(TAS)	(MAS)	(SMB)	(RES)	(CAS)	(UCS)	(IGS)	(UCC)	(EBiz)

Tools and other services for utilities:

Business Energy Advisor—Energy efficiency content you can license for your web site.

Climate Resource Center—Makes your web site an instant must-use climate resource for your customers and stakeholders.

For Large Energy Users: *Buying and using energy in an efficient and environmentally sound way*

Corporate Energy Managers' Consortium	Electricity & Natural Gas Price Forecasting Service	Rebate & Incentive Finder
(CEMC)	(ENGPFS)	(R&IF)

Tools and other services for end users:

Facility Metrics—Ranking the energy performance of multiple buildings.

Climate Footprinter—A do-it-yourself greenhouse gas inventory toolkit for energy users whose emissions profile is too complex to handle with a simple online calculator.

For Building-Product Manufacturers, ESCOs, and Other Service Providers: *Helping non-utilities serve energy users*

Energy Market Advisory Service
(EMA)

For Government Agencies, Nongovernmental Organizations, Consultants, and Others

Many of our services are appropriate for large organizations and consulting firms. Please contact us for more information. Generally, we do not offer services that are appropriate for individuals or small companies.

Consulting

Greenhouse Gas and Climate Change Issues

E Source has considerable experience helping organizations to measure their greenhouse gas and carbon dioxide emissions, assess their risk, and establish proactive plans. [Learn more about these services.](#)

Technology Transfer Projects

Getting technologies from the lab into users' hands is often the hardest part of any R&D project. If you need help with an energy-related technology transfer project, we may be able to help. [Find out what we can do for you.](#)

Other Custom Projects

On a highly selective basis, we take on consulting engagements in areas where we have unique capabilities. If you think we have the right mix of qualifications for your project, please [contact us now.](#)
