

Optimize your smart city journey

September 13, 2021

E Source helps <u>cities</u> assess their technological and organizational maturity in seven key areas to prioritize future investments:

- Public safety
- Waste management
- Transportation
- Environmental quality
- Utility services
- Community and culture
- Strategic direction

Learn more about how the E Source Smart City Assessment tool and our <u>technology consulting</u> expertise can help you make the most of your smart city technology-planning projects.
