

E Source 2023 Utility Ad Awards Contest is now open

E Source is now accepting submissions for the top utility advertising campaigns

By Sannie Sieper

April 3, 2023

E Source, the data authority for the utility industry and enabler of the [Sustainable Utility](#), just announced the launch of the 2023 [Utility Ad Awards Contest](#). The annual contest recognizes and rewards creative excellence in utility advertising. The contest is now open and accepting entries until May 12 from any electric, gas, or water utility located in the US or Canada.

The Utility Ad Awards Contest is now open and accepting entries until May 12 from any electric, gas, or water utility located in the US or Canada.

E Source encourages utility marketers and advertising agencies to submit their most effective and creative campaigns, including multiple pieces of content with each campaign. Find full contest terms at www.esource.com/adcontest.

E Source will grant awards in the following categories:

- Energy efficiency and demand response programs
- Solar, storage, EVs, and electrification
- Safety and emergency or outage communications

- Brand
- Home energy management and smart home
- Self-service (bill pay, start or stop service, etc.)

“I’m looking forward to reviewing this year’s utility ad campaigns that generated results for brand awareness, website traffic, and program participation,” says Sannie Sieper, director of marketing for E Source. “I’m curious to see which category gets the most entries this year and what new, creative tactics utilities are using to communicate with their customers.”

An independent group of leading creative directors, graphic designers, art directors, and writers will review and score the entries based on ad effectiveness, objectives, message, memorability, and creativity. E Source will honor the winners at the [E Source Forum 2023](#) and publish information about the winning campaigns on the E Source website.

Find winning ads from previous years at www.esource.com/adcontest-winners.
